DETAILED ACTION

Drawings

1. The drawings are objected to because in Fig.6, it appears numerals "53" and "60" should be designated with primes.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: On p.2, section 5., the recitation "untrue" here makes the description unclear here.

Appropriate correction is required.

3. Claim 1, lines 13-14, the recitation "of open end" is awkward. Claim 7, line 5, before "upper", insert --an-- for clarity.

The scope of claim 3 appears to be inaccurate/indefinite since claim 3 is a multiple dependent claim which can depend on claim 2 which recites that the connecting body is a "conic body". How can the connecting body be "conic" as well as "rectangular" (see claim 3, line 2)? Similarly, since claim 3 can depend on claim 2, how can the ribs be "gradually reduced" (claim 2) and all be "equal to each other" (claim 3)?

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Shultz, Watt, Bohne, and Myers are pertinent to various brush assemblies having cover structures.

Allowable Subject Matter

5. Claims 1-7 are allowed pending minor clarification as recited above.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Chin whose telephone number is (703) 308-1613. The examiner can normally be reached on Monday through Thursday and every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Warden can be reached on (703) 308-2920.
